

PITCH DECK 2024

Kaichain

THE TECHNOLOGY OF FLAWLESS TRANSACTIONS

KAICHAIN

IS AN UPCOMING BLOCKCHAIN NETWORK
THAT WILL OVERCOME THE UPCOMING
FLAWS IN MAJOR ECOSYSTEMS.

THE BIRTH OF KAICHAIN

KAICHAIN IS A PRODUCT OF A
PROBLEM

SEPTEMBER

2021

SOLANA NETWORK
HALTED

OCTOBER

2021

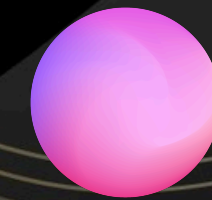

BLOCKCHAIN
OVERLOAD

NOVEMBER

2021

BLOCKCHAIN
OVERLOAD

DECEMBER

2021

SOLANA NETWORK
HALTED

PROBLEM #1: SLOW NETWORKS

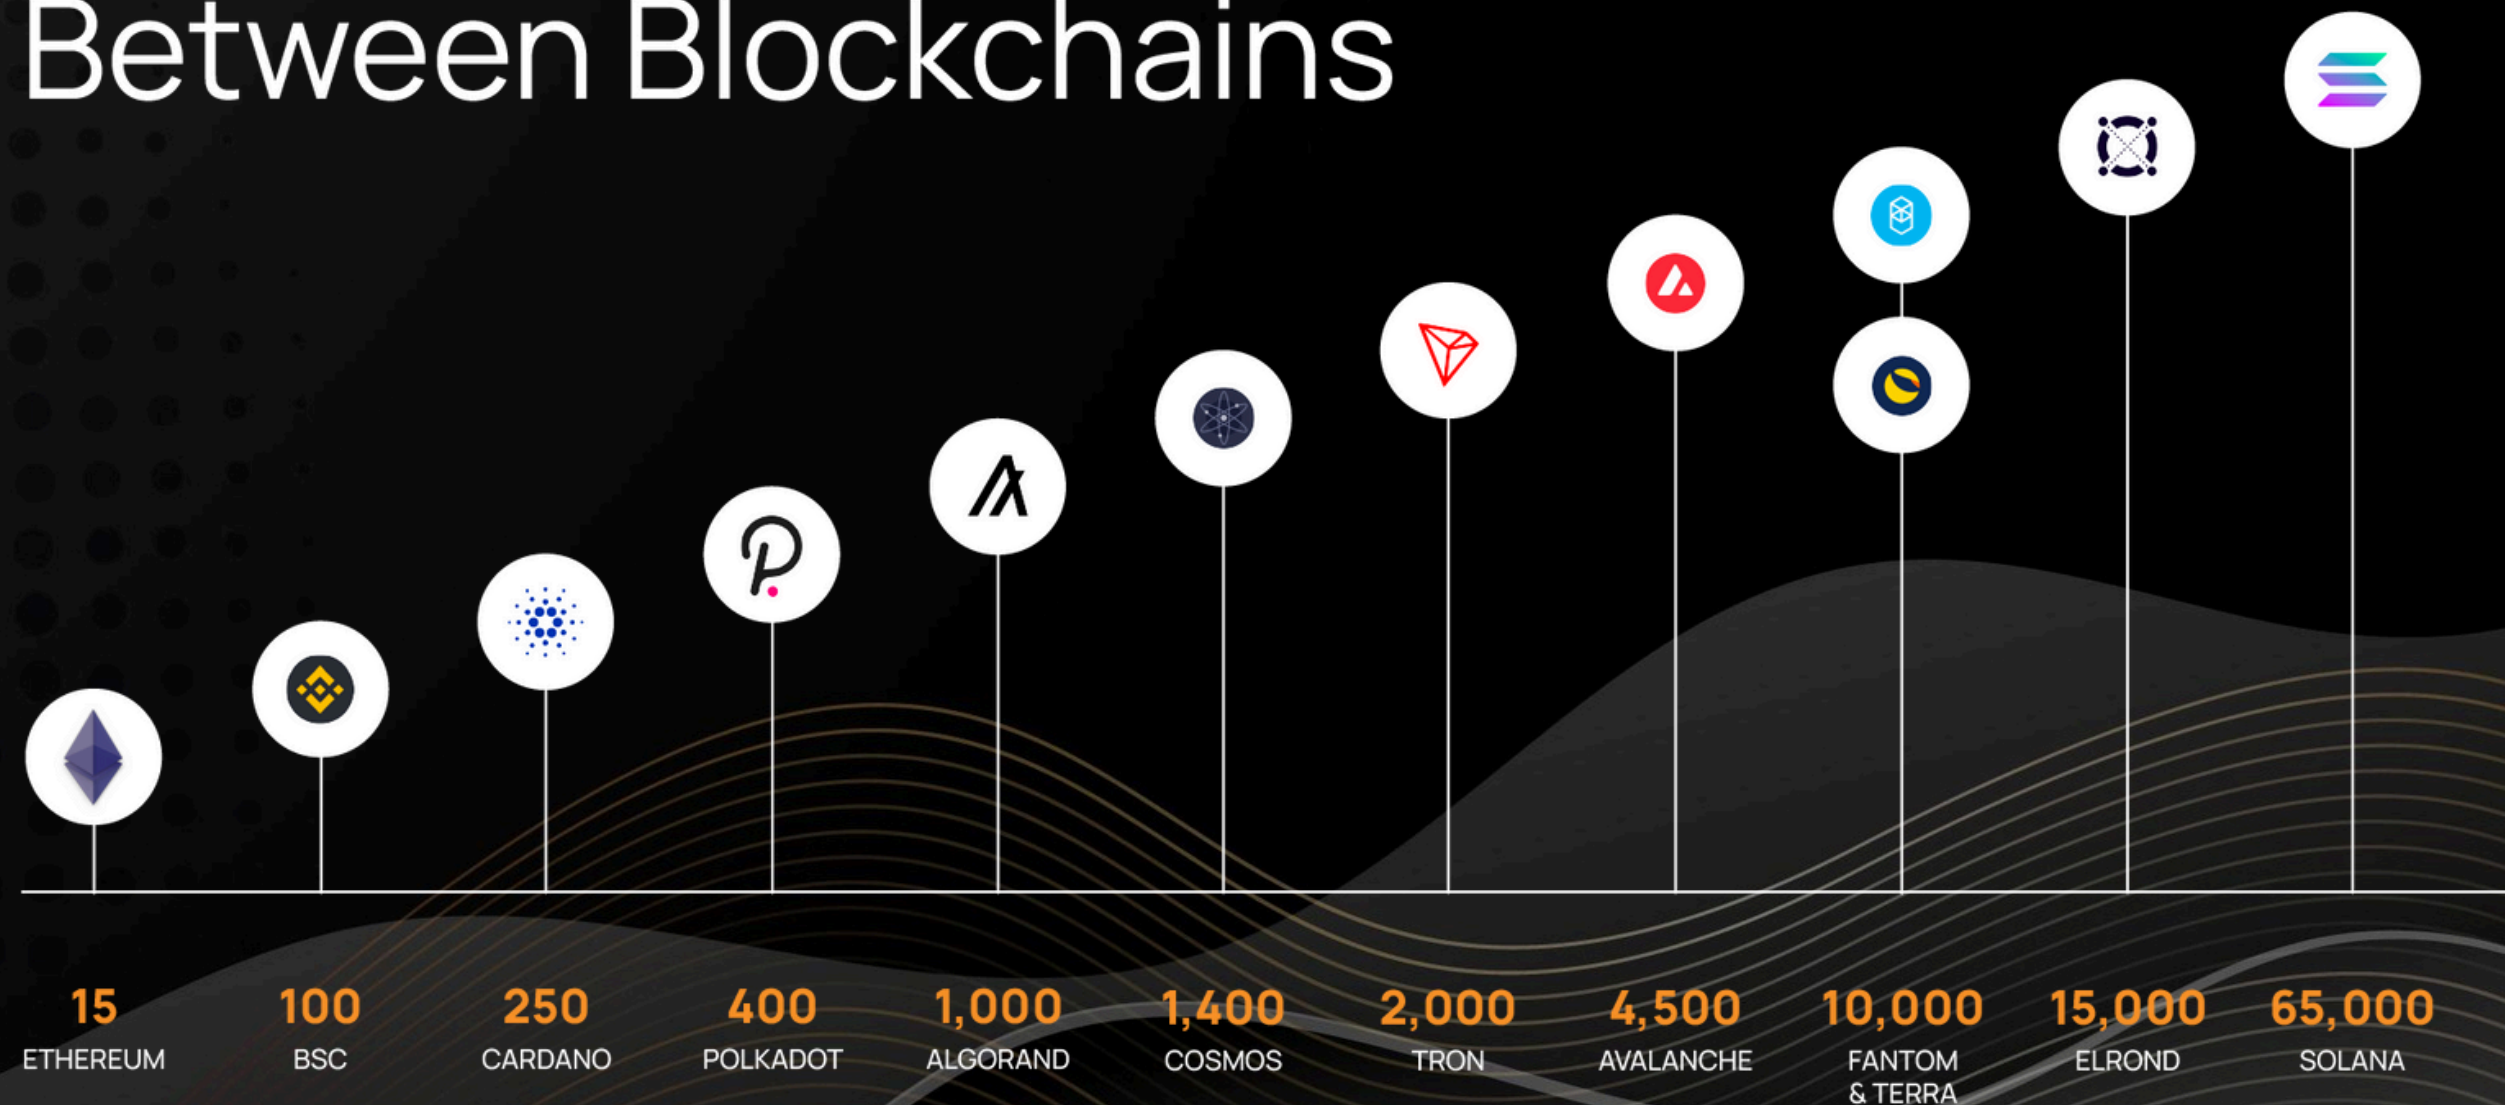

THE TOP BLOCKCHAIN BELOW BITCOIN
HAVE THE SPEED OF 15 TPS WHICH IS
NOT IDEAL FOR HIGH VOLUME
TRANSACTIONS AND MASS ADAPTION

PROBLEM #1: SLOW NETWORKS

Transactions Per Second Between Blockchains

95% OF THE
POPULATION
DOESN'T OWN
ANY CRYPTO
ASSET

PROBLEM #2: OVERLOAD

BLOCKCHAIN ADOPTION, THOUGH INCREASING RAPIDLY, IS STILL IN ITS INFANCY. WITH LESS THAN **5%** OF THE GLOBAL POPULATION USING CRYPTOS AND EVEN A LESSER AMOUNT IN GAMEFI, THE STRESSES AND LOAD ON EVEN THE MOST ADVANCED BLOCKCHAIN ECOSYSTEMS ARE BEING FELT.

<https://triple-a.io/crypto-ownership-data/>

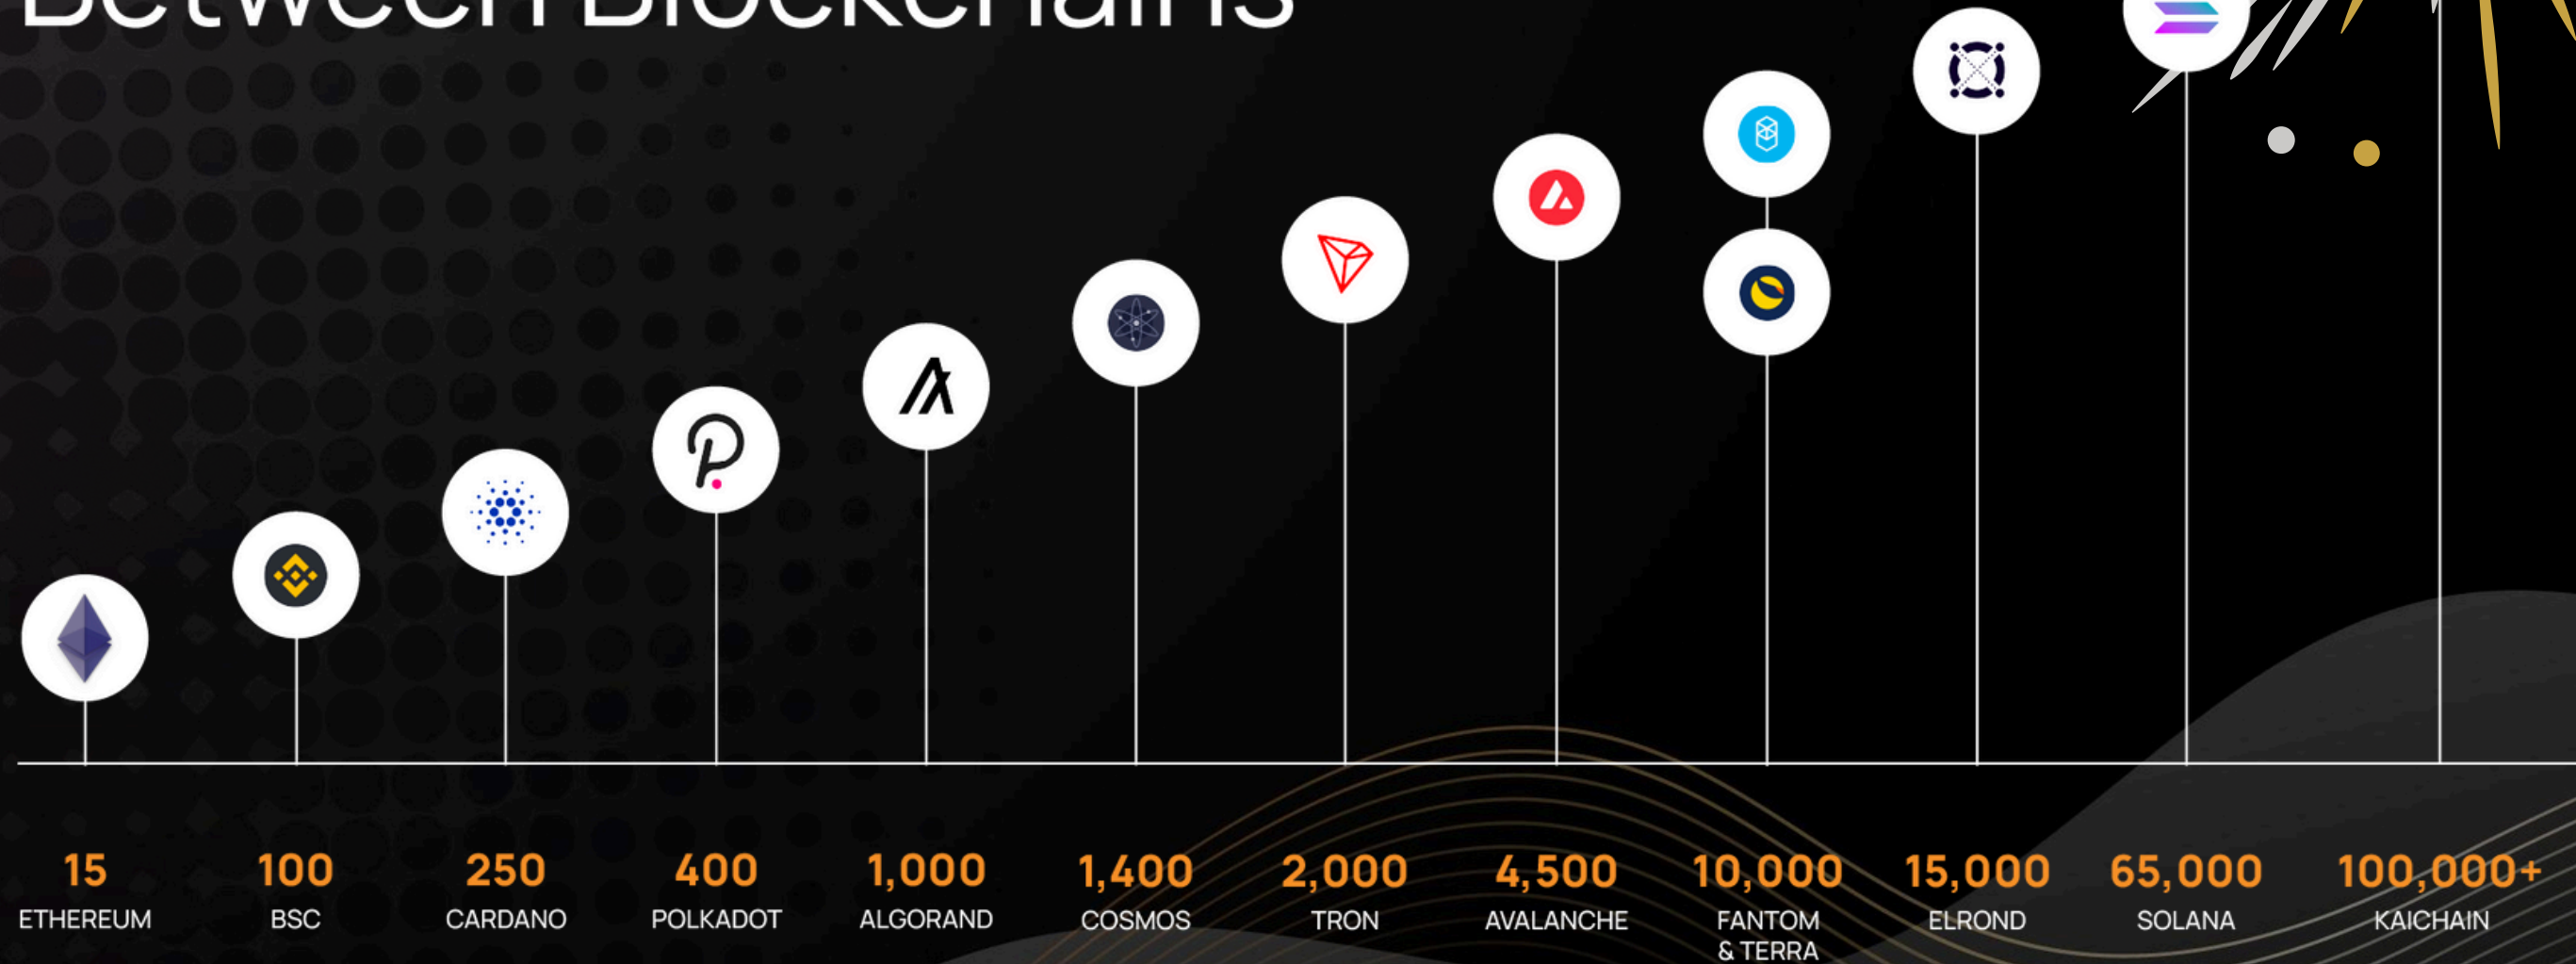

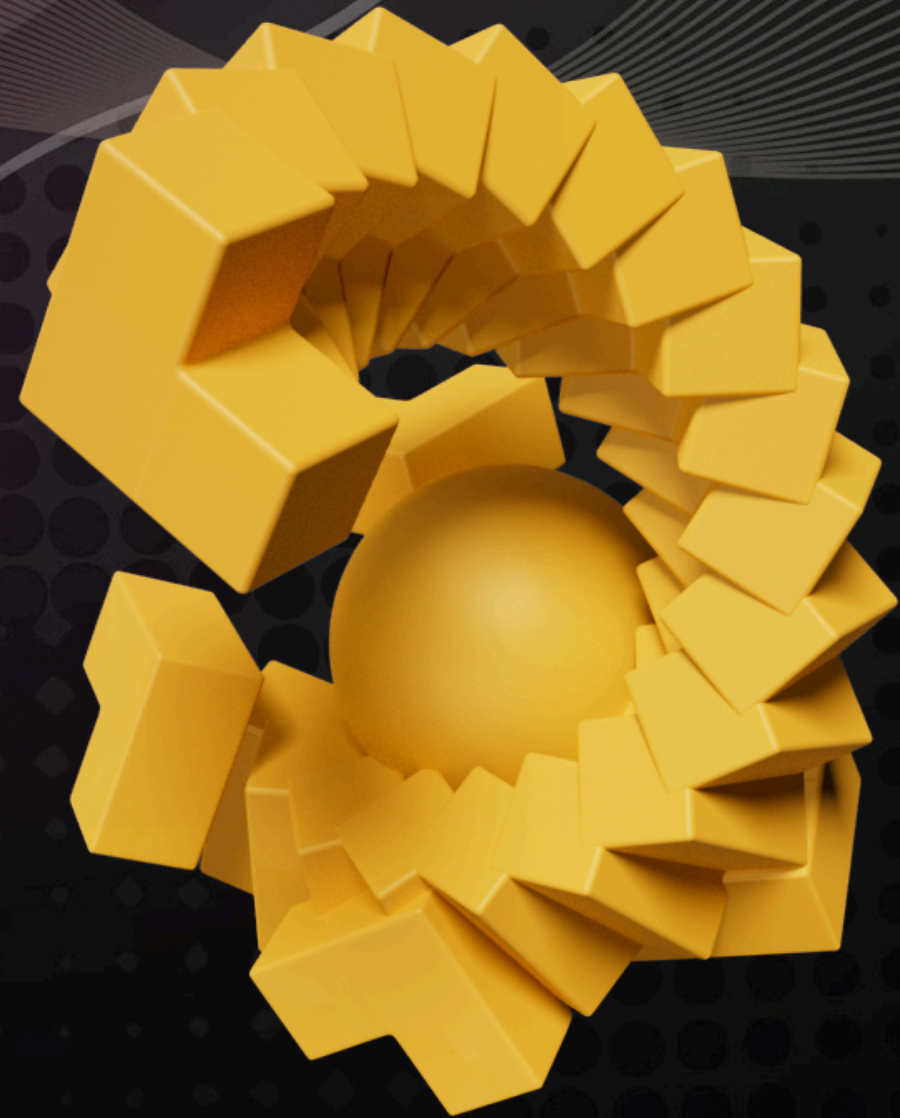

SOLUTION

NEW BLOCKCHAIN THAT CAN HELP EASE
THE OVERBURDENED NETWORKS

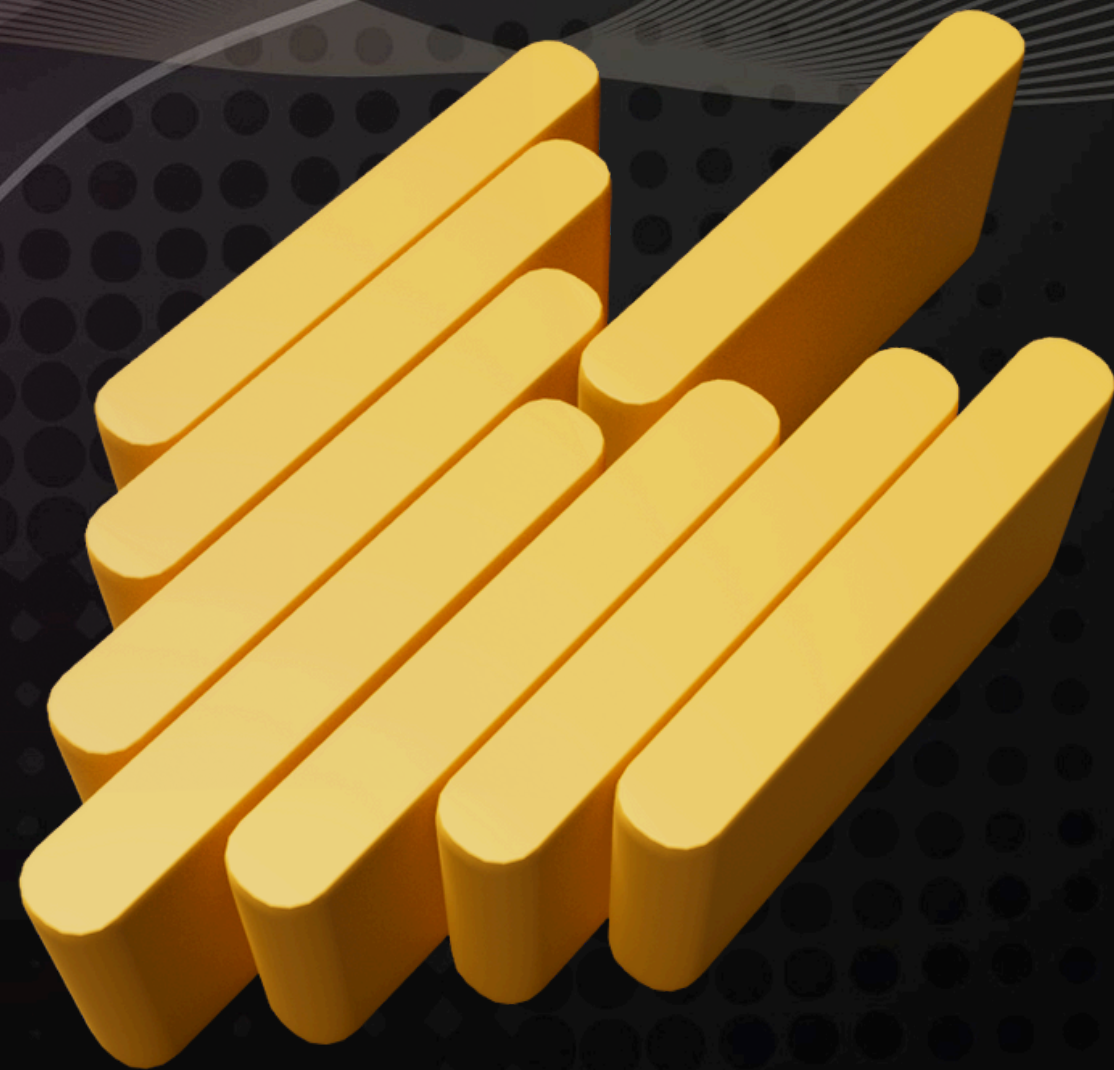

Transactions Per Second Between Blockchains

FAST TRANSACTION

THE BLOCKS ARE COMPRESSED SO IT
WILL PRODUCE SMALLER SIZES, THUS
MORE TRANSACTIONS CAN FIT IN PER
BLOCK

CHEAP TRANSACTION COST

TRANSACTION COST IS TOO CHEAP.
EVEN IF THIS BLOCKCHAIN WILL REACH
\$1B MCAP, TRANSACTION WILL STILL
BE VERY CHEAP.

ECO-FRIENDLY BLOCKCHAIN

EVERY TRANSACTION DOESN'T LEAVE
ANY CARBON FOOTPRINT TO THE
ENVIRONMENT

EVM COMPATIBLE

**NO NEED TO LEARN NEW SYNTAX, NO
NEW LINES OF CODES OR
COMPATIBILITY PROBLEMS**

IN-HOUSE DAPPS

DAPPS THAT WILL BE PART OF THE
KAICHAIN ECOSYSTEM

1

MAINNET

Deployed and Fully
Working
Community Tested

2

FAUCET

Deployed and Fully
Working
Community Testing 2x

3

TESTNET

Deployed and Fully
Working
3000+ wallets

FAST TRANSACTIONS

Ideal for sectors that requires huge volume of transactions

ALREADY DEVELOPED

All the components of the blockchain is already deployed and running

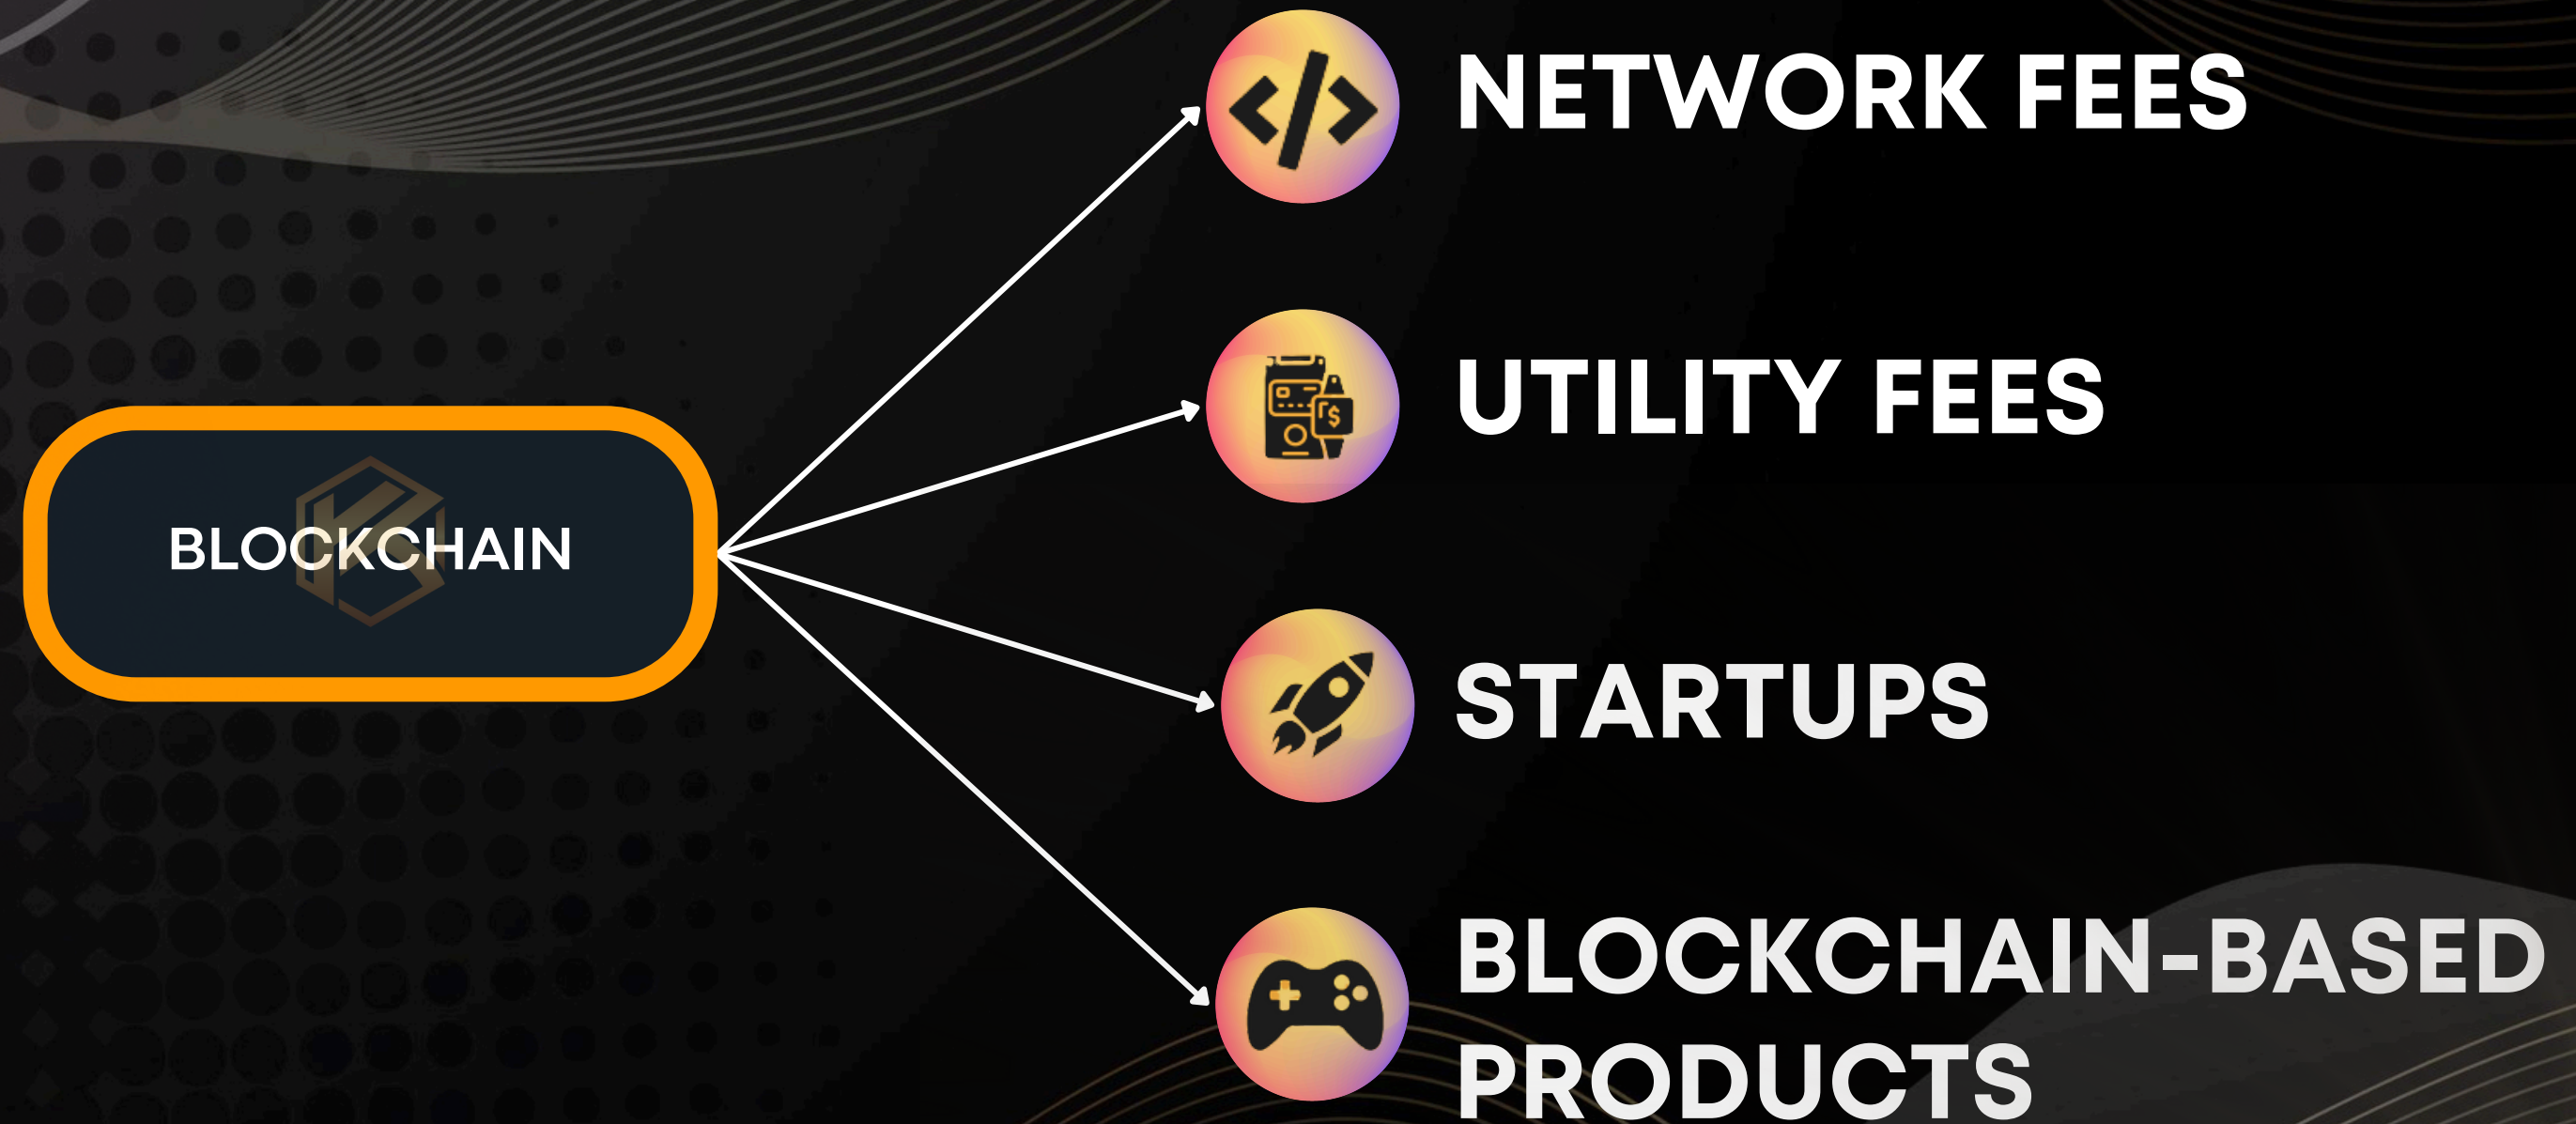

SCALABLE

Ideal for any business of any size

PIONEER SUPPORTER

Early investors get the best ROI

USE OF FUNDS

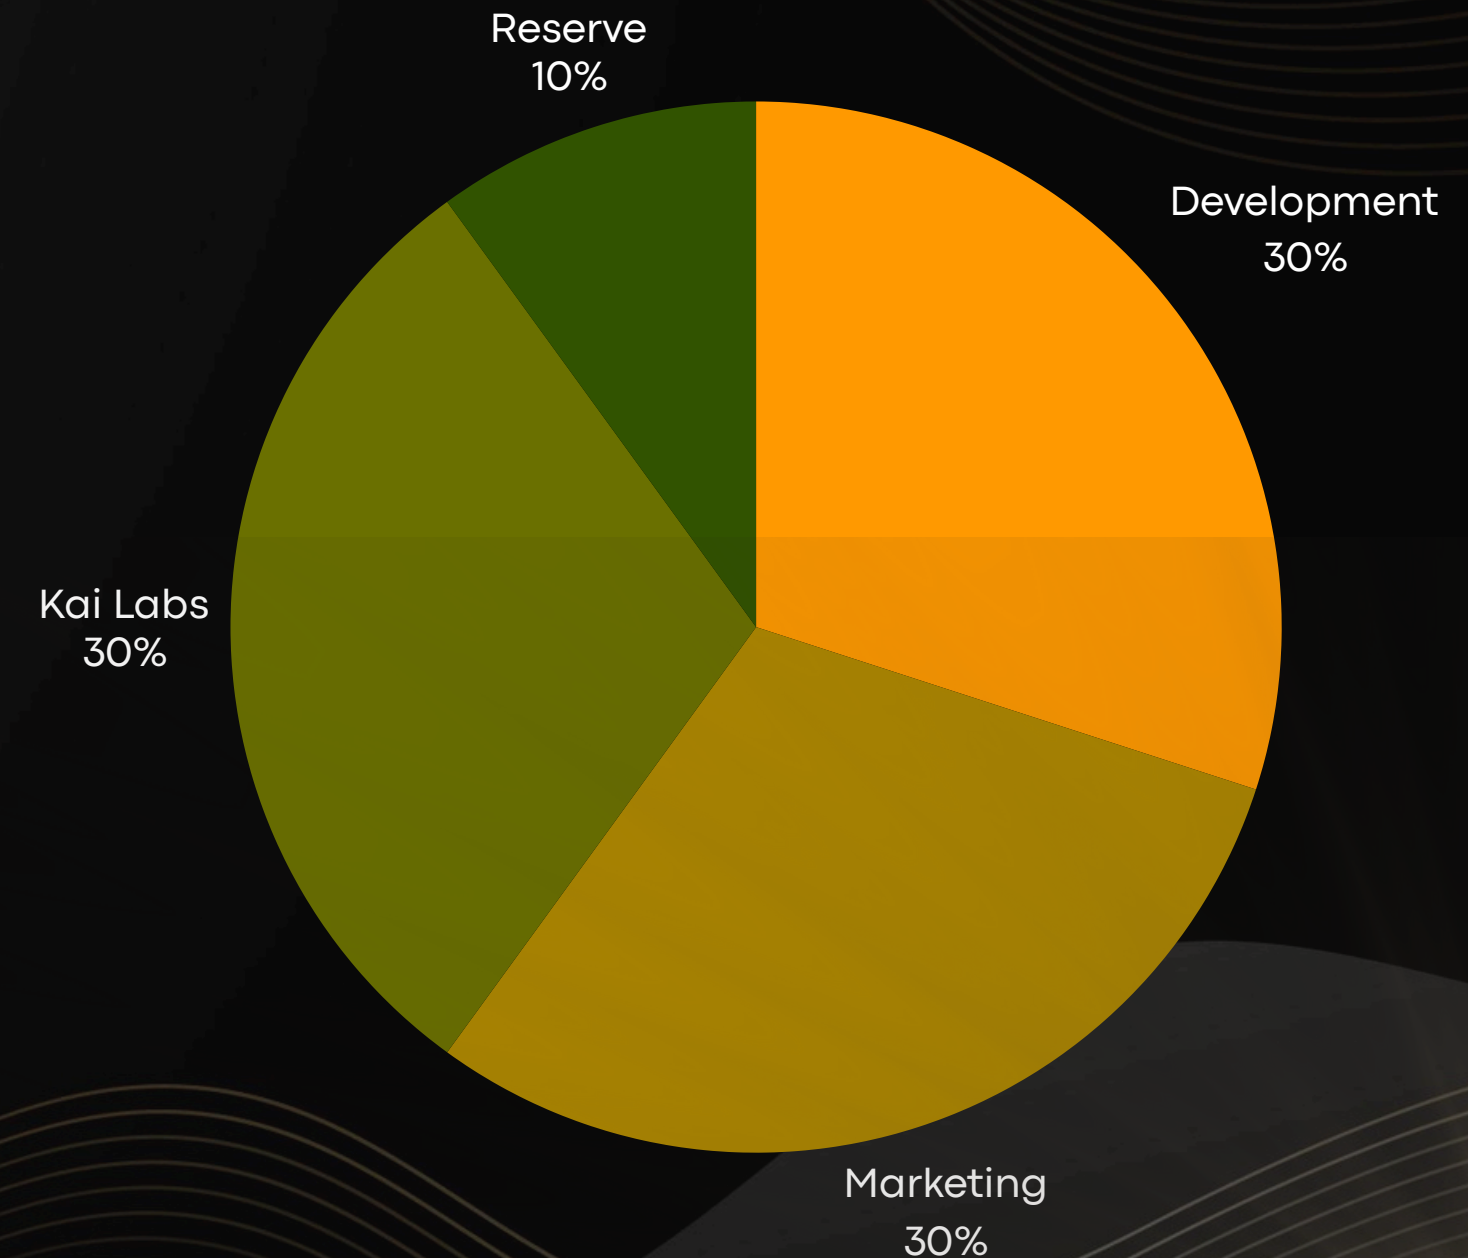

We will be allocating the funds from investors on the following key spending areas:

30% ON DEVELOPMENT

30% ON MARKETING/PARTNERSHIPS

30% ON PROJECT INCENTIVES/GRANTS

10% RESERVE

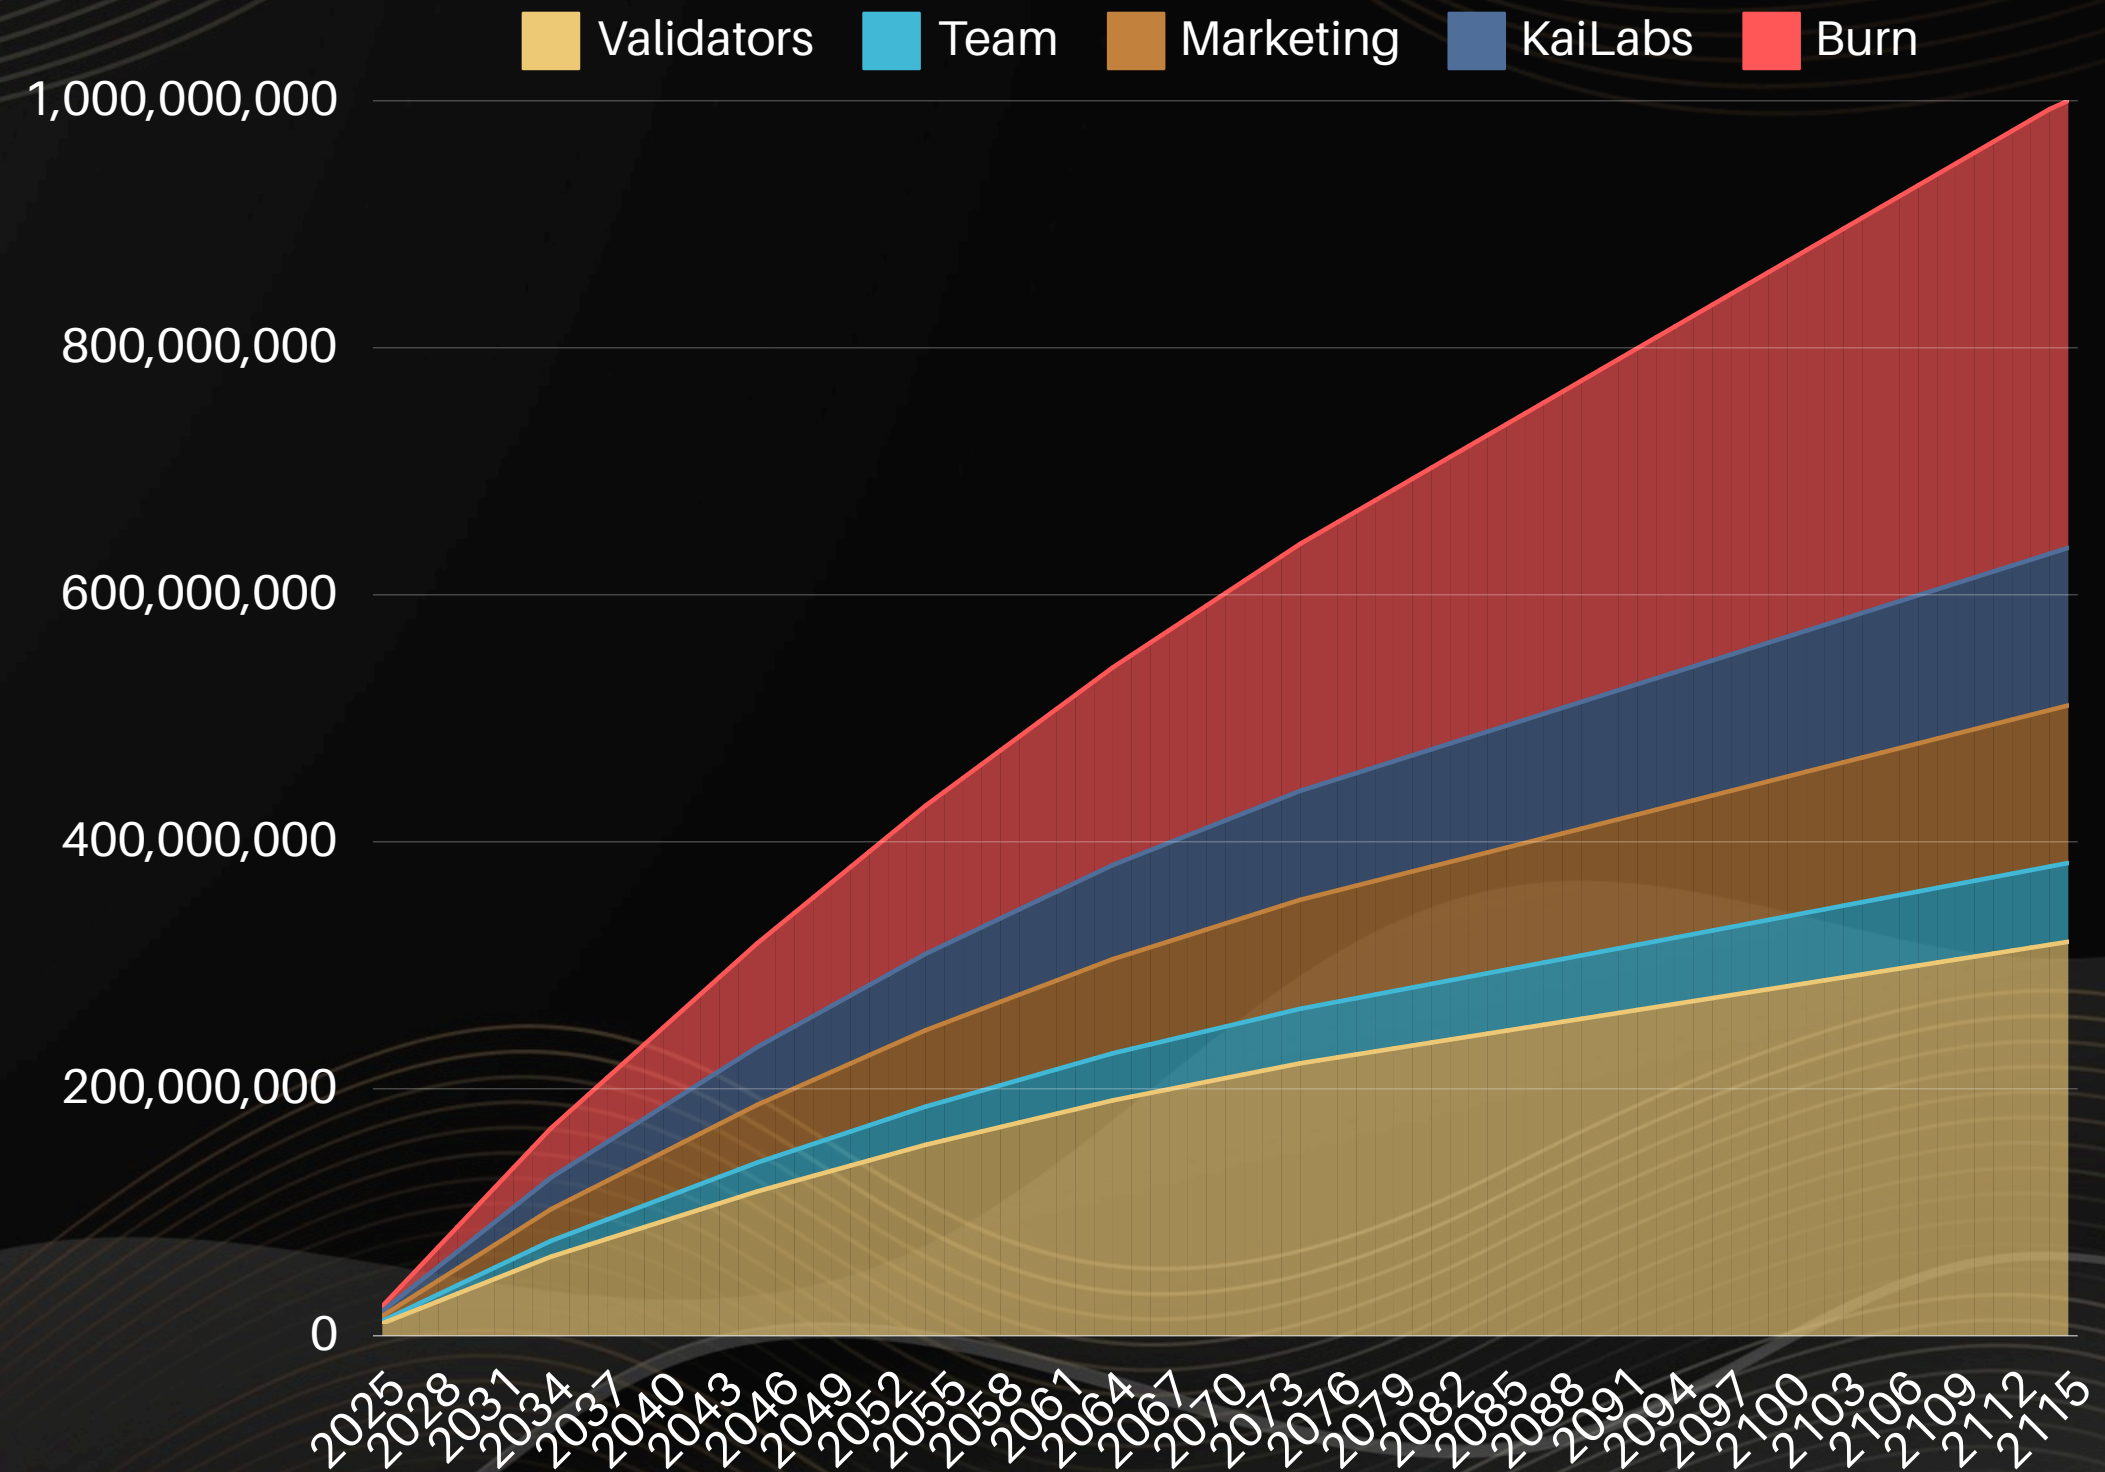

COIN DISTRIBUTION

The native coin will be released and allocated on different areas to sustain the blockchain's ecosystem

- 12 Million coins released every year
- 1 million coins burned every 3 months
- 50% of the released coins will be distributed to the validators
- 10% of the released coins to be distributed to the team
- 40% of the released coins will be distributed to kailabs and marketing

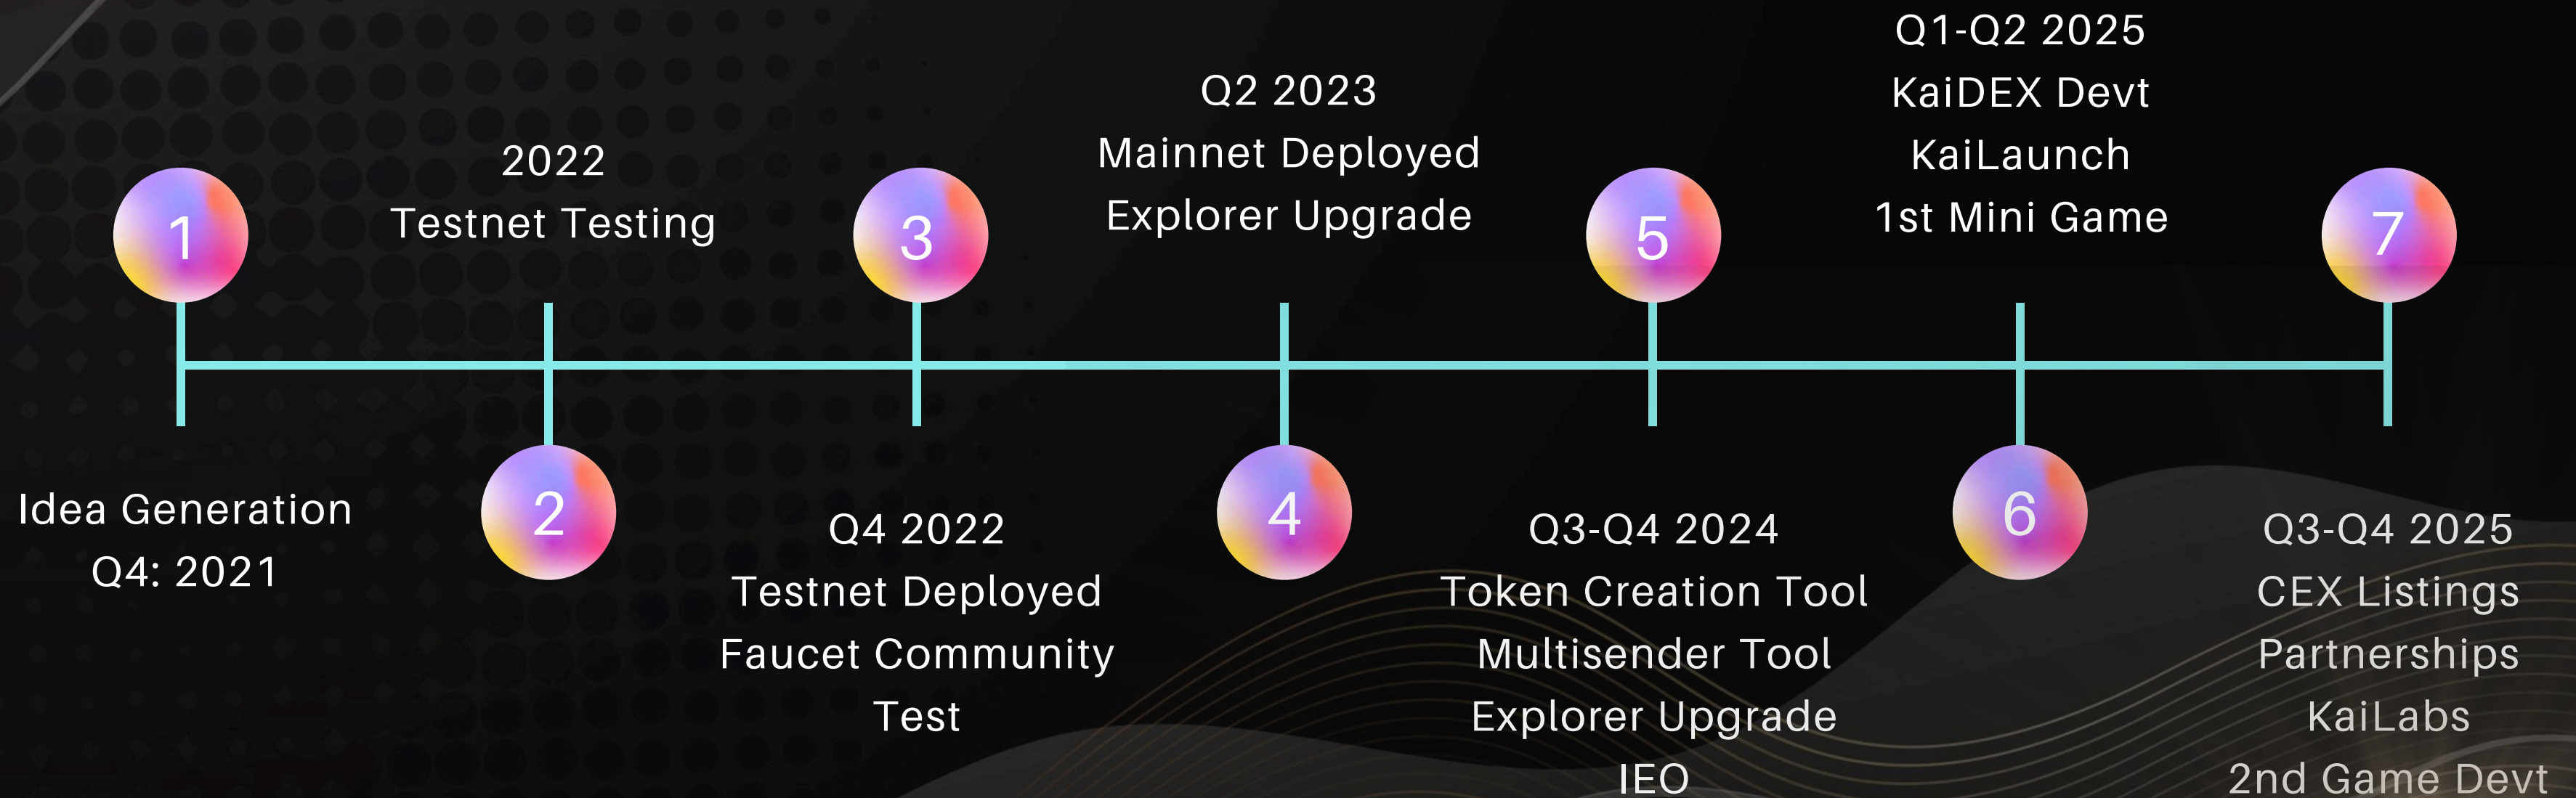

WHY JOIN KAICHAIN?

1. NO RISK OF PRICE DUMP BY HUGE INVESTORS
2. AMPLE ROOM FOR GROWTH
3. FUTURE-PROOF INVESTMENT
4. A THRIVING ECOSYSTEM OF DAPPS AND GAMES
5. EXCLUSIVE ACCESS TO NEW TOOLS AND BETA TESTS
6. COMMUNITY AND NETWORKING OPPORTUNITIES

TIME TABLE

ABOUT US

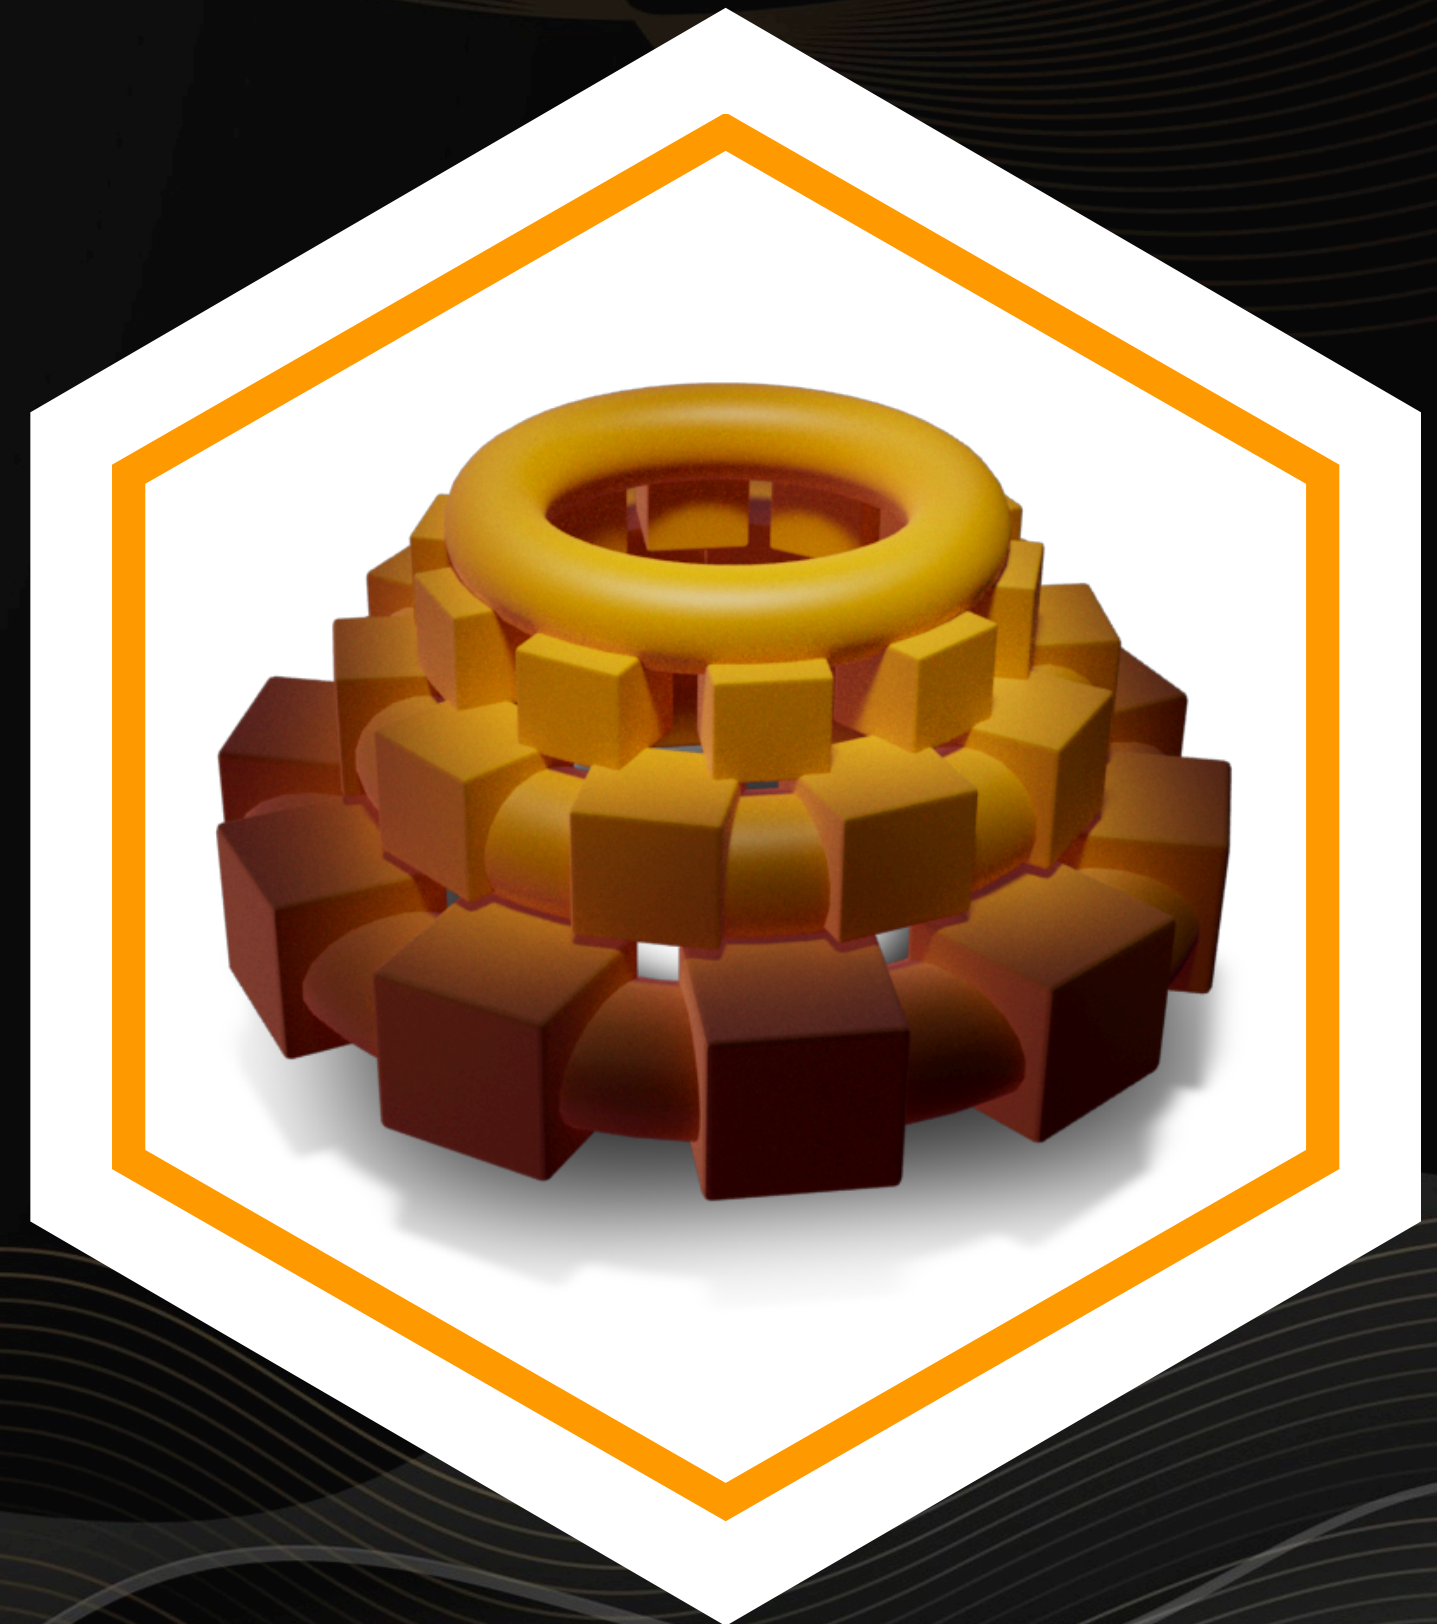

Kaichain is a team of passionate individuals and groups from different parts of the globe. They came from different backgrounds specializing in management, finance, AI technology, blockchain and engineering.

4 Core Members

2 Developer Teams
